

Mike Herenberg, Vice President of Frontier Technologies is pleased to announce that Kerr Global Communications, Frontier's sister company, has been named the Exclusive National Value Added Reseller for Geotab Fleet Tracking Solutions. This accreditation makes Kerr Global Communications the only GPS consultancy in the Geotab reseller network. From their offices in Dartmouth, Nova Scotia, Kerr Global has been able to add such organizations as the Halifax Water Commission, Nova Scotia Power, Vitalaire, Nova Scotia Community College and Vistacare Communications to their GPS system bringing their total vehicle count to over 1200 in the past ten months.

"Geotab recognized time and time again that we had the right resources and experience to take on the national fleet contracts for their technology", states Mike Herenberg, Vice President, Frontier Technologies. "With Kerr Global taking on the large scale projects across Canada, it will really allow both companies to ensure the customer is getting a top notch product"

Kerr Global will continue to host their monthly GPS information sessions at their Dartmouth location, support their existing clients and continue to add vehicles to their system. For more information please contact Sean McKenna, Kerr Global Communications at 902 446 3930 x208 or smckenna@kerrglobal.com
