## **Red Recruit Ltd Helps Canadian Movers Find Workers**

**Red Recruit Ltd.** is a highly specialised recruitment/personnel consultancy working in the moving industry. As we are specialized, we understand what the moving industry is about and have an in depth knowledge of what our clients do and what they are looking for. This not only saves a company time but also a considerable amount of money in recruiting the right candidate. Red can assist companies with sales or operational managers, directors, equity partners, sales representatives through to move co-ordinators. By finding out what needs in the business our client is trying to fulfill we are then able to profile candidates that not only have the skill set for that company but also match that company in terms of chemistry. Red is based in the UK but has been placing people in the moving industry in Canada for a number of years. It is a pleasure working with Canadian companies; we have found them to be very entrepreneurial and to appreciate the work that we put into sourcing experienced candidates for them. If you would like to speak to one of our highly-trained consultants, then please call 00 44 1624 840 600 or 00 44 7957 684 666.
