**ARPIN VAN LINES INTRODUCES  
"PRIORITY ITEMS BOXES" FOR VALUABLES**

---

**Also included in the revamped Arpin packing system are  
hardware packing kits for items requiring assembly**

**WEST WARWICK, R.I. (October 15, 2008) - Arpin Van Lines** instituted a new packing process today, which offers "priority items" boxes, bags, labels and inventory sheets designed to protect and account for valuable items during customers' moves.

Arpin Van Lines is also adding special hardware boxes which come with kits containing "hardware" stickers, small plastic bags and inventory sheets for items requiring assembly.

The Rhode Island based van line, which specializes in household goods moving for corporate, government, military and COD relocations, implemented the new program in an effort to improve the customer experience and minimize claims.

"A household move can be a very stressful time in person's life, particularly when it comes to the safety of expensive equipment or sentimental items," said Mark Dearborn, Vice President of Customer Care for Arpin Van Lines. "We are adding another level of comfort and peace of mind for our customers by revamping our packing process to ensure the safety of valuables during the relocation process."

Priority items include small electronics such as DVD players, MP3 players, DVDs and CDs, electronic game units, cameras, video recorders, designer accessories, collector type memorabilia and others. These items will be inventoried, packed into appropriate cartons and labeled with an Arpin Van Lines sticker for easy identification. Sealing and unsealing of the package will occur while the customer is present.
