

## Headline: Meet Our New Chair – Cam Carswell!

MISSISSAUGA, ON, December 5, 2017:

Like many in our industry, Cam of Country Wide Moving & Storage comes from a long line of movers.

The company's roots can be traced back to the early 1900's when current owner, Cam Carswell's, great grandfather started a drayage company in Melfort, Saskatchewan. Cam's grandfather took over the operation in the 40's and expanded the business to include local moving by horse and wagon. He purchased his first truck in the early 50's and in the 60's started long distance moving within the province of Saskatchewan. It was called Carswell Moving & Storage then. In the early 70's, Carswell Moving & Storage became an agent for Allied Van Lines and expanded the fleet to include tractors and trailers.

Cam worked in the business and became a partner in 1980 when the company expanded to Prince Albert, Saskatchewan. In 1987, they opened a branch in Saskatoon. In 1993 Cam and his uncle parted company and this resulted in a name change to Country Wide Moving & Storage. Country Wide is the largest international moving company in Saskatchewan.

"Cam is a consummate professional in our industry and is well known for finding the good in every situation," says Nancy Irvine, President of CAM. He has raised the quality of service for the customers and is a sterling example of a reputable mover. The Canadian Association of Movers is thrilled that Cam will be at the helm of our association for the next two years."

### **About Canadian Association of Movers (CAM)**

The Canadian Association of Movers is Canada's trade association representing reputable, professional moving & storage companies around the world. Other members of CAM include suppliers to the industry and trade associations in other countries.

Consumers can contact CAM for assistance in finding an ethical moving and storage company that will provide professional moving and storage services – a mover that subscribes to [CAM's code of ethics](#), meets CAM's business standards and commits to mediation in the unlikely event of a dispute.
