

FOR IMMEDIATE RELEASE

Kentucky Trailer Technologies announces the promotion of Harper to Vice President of Sales, Marketing and Business Development and Boughton to Vice President of Operations

LOUISVILLE, Ky. - (October 27, 2011) - Kentucky Trailer announces the promotion of Tom Harper to vice president of sales, marketing and business development along with Brooks Boughton to vice president of operations at Kentucky Trailer Technologies, Kentucky Trailer's specialty trailer and vehicle division located near Detroit, in Walled Lake, Michigan.

Harper will be responsible for sales operations, marketing, new business development, and also administrative functions of the technologies division. As vice president, he will report directly to Gary Smith, President and CEO of Kentucky Trailer in Louisville, Kentucky.

Harper brings 13 years industry experience with him to this new position and has served Kentucky Trailer Technologies previously as systems manager, general manager and director of sales & marketing, with a current promotion to vice president of sales, marketing and business development. His previous career was in the marine industry, where Harper served as director of purchasing and materials management at Wyandotte, Michigan-based Eagle Trailer. Harper's plans are for continued market share growth and entrenchment of the specialty trailer, truck and vehicle division, with special emphasis on recently-entered defense, mobile medical imaging, and TV/broadcast vehicle markets.

Boughton's responsibilities at Kentucky Trailer Technologies began twelve years prior as the director of engineering. With his current promotion, he will now oversee manufacturing, production, engineering and purchasing at the Kentucky Trailer Technologies location. As vice president of operations, he will report directly to Gary Smith, President and CEO of Kentucky Trailer in Louisville. Boughton's future goals are to increase efficiency on the production floor to maximize output based on square footage. Boughton also expects the Walled Lake, Michigan division to attain ISO 9001 certification by the end of 2011.

Prior to Kentucky Trailer Technologies, Boughton graduated from Western Michigan University with a Bachelor of Science degree in Mechanical Engineering. He also worked in the engineering field where his design experience dates back to 1994.

Kentucky Trailer Technologies, an operating division based in Walled Lake, Michigan, builds a wide and diverse variety of custom specialty vehicles, with special focus on enclosed vehicle transporters for the automotive and motorcycle/leisure vehicle transport markets, standard and/or expandable trailers, trucks and containers for mobile marketing, mobile broadcasting/production, mobile command, mobile medical, mobile training centers and other mobile platforms for commercial and government customers. The projects completed at the facility all entail cutting edge engineering, solid design, and first-quality construction. A partial client list includes: Alcatel-Lucent, Lockheed Martin, Ford Motor Company, General Motors Racing, Homeland Security, Seagate, The GAP, Exhibit Works, Miller Electric, Campbell Ewald, Firestone, Jack Morton Exhibits, Pilot Transport, Select-1 Auto Transport, United States Army, FBI and TaylorMade Golf.
