

Ship EVs & Hybrids with Confidence – VIAMAR Delivers over 49 years Expertise

In the fast-evolving world of automotive logistics, shipping electric and hybrid vehicles requires specialized knowledge, compliance with stringent international regulations, and precise handling of lithium batteries. VIAMAR is your trusted partner in navigating these complexities with efficiency and expertise.

ViaMar 
Viamar Scilla Transport International INC.

Why Choose VIAMAR?

- **Regulatory Compliance**
 - We stay ahead of evolving global regulations, ensuring full compliance with IATA and IMDG guidelines for the safe transport of lithium-ion battery-powered vehicles.
- **Specialized Handling & Packaging**
 - Our team understands the unique requirements for EVs and hybrids, including fire risk mitigation, and proper securing for ocean and land transport.
- **Global Network & Seamless Execution**
 - With established carrier partnerships and a proven track record, we facilitate smooth customs clearance, documentation, and multimodal logistics.
- **Risk Management & Safety Assurance**
 - We prioritize safe transport with expert risk assessment, hazardous goods classification, and the latest industry best practices.

Trust VIAMAR's expertise to handle your clients EV and hybrid vehicle shipments with precision and reliability.
